F1 SPECKLE PARK X ANGUS PTIC HEIFERS

NB: Please note variations of the F1 heifers from the printed catalogue in age, tag colour and lot head count

A great line of EU two-year-old PTIC maiden heifers out of some of Minnamurra's best Te Mania blood Angus commercial cows are offered for sale in various pen sizes. Born in Spring 2017, many of these heifers are sisters to the winning steers in the RNA carcass competition in 2019. They are daughters of either Redneck Whisky 4B, or else some of our other quality Speckle Park cover bulls, and are due to calve in Autumn 2020 by either Wattle Grove Project A L264 or Waratah Loco L42. All have been drenched and 7-in-1 vaccinated and can form the basis for a top-quality commercial Speckle Park herd.
